

## PRODUCTION LINES

Ahead of the 2012 MPG Awards, Music Week takes an exclusive look at the most successful album producers of the past 12 months, with + producer Jake Gosling leading the way

Jake Gosling

Ed Sheeran collaborator Jake Gosling (pictured above) has topped an exclusive *Music Week* chart of the most successful album producers of the past 12 months.

His production of Sheeran's Asylum/Atlantic debut + is enough to place him at the head of the Top 50 countdown, which is based on production shares of the 50 biggest-selling artist albums in the UK between the start of August 2011 and end of July this year.
